

Intelligent Modelling of Big Data Systems

大資料系統智慧模型的建立

演講者：王啟旭教授 (IEEE Fellow)

地點：國立交通大學 工程五館220室

時間：2015.08.05(三)13:30~15:00

Abstract

The purpose of this talk is not to illustrate Big Data Systems (BDSs), but to explore its kernel issue, i.e., the modelling of BDS and explore the modelling of BDSs by intelligent techniques. A very important finding about the capacity of Fuzzy Neural Networks (FNNs)
